Employability and Foundational Academic Standards-Alternate Assessment

The Employability and Foundational Academic Standards-Alternate Assessment were developed to provide teachers a working knowledge of the skills needed to assist students in becoming career ready and succeeding in the environments they will encounter after high school.

The standards guide the assessment for youth on the Alternate K-PREP in the career ready academic component. The standards also serve as the foundation for work-based learning and the Kentucky Career Work Experience Certification (CWEC), which corresponds to the career ready technical component of the career readiness measures. See table below. The intent is the skills will be taught in the classroom but students will also be given opportunities, during high school, to practice and generalize the skills in community and work settings.

College and Career Readiness Measures for Students Participating in the Alternate Assessment				
College Ready: Must meet TAR benchmarks	Career Ready: Must meet benchmarks in Career Academic area and Career Ready Technical area		Bonus: Must meet benchmarks on the following	
College Ready	Career Ready Academic	Career Ready Technical	College Ready	Career Ready
Transition Attainment Record (TAR)	Employability Skills Attainment Record (ESAR) (based upon standards, i.e., KOSSA and Department of Labor Employment Standards)	Career Work Experience Certification (based upon standards, i.e., KOSSA & US Department of Labor Employment Standards)	TAR	ESAR CWEC

The standards were developed through a review the Kentucky Occupational Skill Standards (KOSSA). The KOSSA standards were reduced in number as well as in depth and breadth. Those that appeared salient for youth participating in Alternate Assessment were selected, and revised as needed, for inclusion in the EFAS-AA. The standards identified were also cross-walked with the US Department of Labor's Office of Disability Employment Policy's Skills to Pay the Bills research and curriculum (2012).

The EFAS-AA contains three main areas: Personal Quality and People Skills, Foundational Academic Skills, and Workplace Knowledge Skills. Each area is further delineated and organized into corresponding sub-areas with numbered standards.
